

## Unsafe Acts and Conditions

### Why This Matters

Unsafe acts and unsafe conditions are major contributors to workplace accidents and injuries. Identifying and correcting them early helps prevent incidents and keeps everyone safe.

### Common Causes

- Ignoring safety procedures or shortcuts
- Poor housekeeping or damaged equipment
- Lack of awareness or complacency
- Inadequate supervision or safety training

### Practical Safety Actions

- Follow all safety rules and procedures at all times
- Report unsafe acts and conditions immediately
- Correct hazards when safe to do so
- Participate in safety training and toolbox talks
- Encourage co-workers to work safely

**Eliminating unsafe acts and conditions is everyone's responsibility—speak up and act.**
